CHIANTI 585

CHIANTI 585

What to do when your customers demand a big brother to our award winning Chianti 530? Listen to the customers and set the design team the task of creating a bigger Kiwi boat which retains all the features of the 530. The resulting Chianti 585 is not only bigger with a massive 36% increase in cockpit space, but also with enhanced levels of comfort and security.

The new 585 is a true multi purpose boat with the larger cockpit offering plenty of space for family, fishing or storage, plus a new cabin to bunk down in. Combined with the Reflex 'best practice' method of construction and stylish good looks you have a great all-round boat.

The Reflex Chianti 585 is truly a New Zealand icon.
